**Mare Family:**

T1403 Herstblute  
v. Schoning  
K1. Sallentin

This lovely elegant lady was chosen for her quite outstanding bloodlines. She is not a big mare, but breed's wonderful high quality foals with lovely floating movements.

Her Sire Pascal never got the chances in the breed, which he deserved. This noble and very impressive Donauwind-grandson was a real gentleman. He was Champion of his performance test and preformed in his younger years with high success in show jumping and three-day-event on a national level. He always passed on his kind and willing character and his offspring are well known for being easy to train and ride.

His mother line Pelargonie-Peggi is known as one of the most proven families of the Trakehner breed and produced the International dressage stars TNC Partout and Peron. He himself was nearly a full brother to Anky Von Grunsven's Grand Prix dressage stallion TNC Partout. His genes are so valuable that we have decided to keep them in our herd to consolidate the riding ability with the kind and easy attitude.

HG Hawaii represents besides Herbstwolke (also in our herd) as a second mare the outstanding Herbst-family, going back to the black herd of the main stud Trakehnen.

Her Dam Herzblatt was for many years well known, as one of the highest quality mares of the Trakehner breed, becoming Champion mare of the German Trakehners Bundesschau. Herzblatt also got a 10 for movement and produced the Graded Son Heinrich der Lowe, who became a top class show jumper.

Herzblatt's Dam, Elite mare Herzchen produced Herzruf a leading Sire of top broodmares and high talented dressage horses. Her 2nd graded son Hirtenruf became Reserve Champion of his Grading. Herzchen has produced many Champion mares and graded sons with very high marks for movement and conformation.

HG Hawaii's grandfather Seadler is very famous for stamping his offspring and high quality producing daughters, as for example Regatta, Dam of Monica Theodorescu's international dressage star and Olympic hope Renaissance Fleur TSF.

This is a mare line, which holds very valuable bloodlines for the Trakehner breed today, and this mares foals are good in type, carries themselves with pride, have powerful movement with good conformation and plenty of bone.
