Gaelic Prince's Sire Arentino was competed in Prix St. George dressage and did also really well in show jumping. Arentino's Sire Santiago by Wie Ibikus and out of the foundation mare Schwalbelied was Champion of his grading in 1980 and was a very substantial big framed grandson of the legendary stallion Ibikus, which went on to become a very good show jumper. Wie Ibikus himself produced a big number of high successful dressage horses competing up to Grand Prix. Santiago produced some outstanding broodmares and the value can be seen in his offspring's competition results.

Arentino's Dam E.St Arktis II presents herself as one of the valuable broodmares of the Trakehner breed, being a full sister to the stallion Arogno, sire of the stallions Schwadronneur (now dead) and Anky's stallion Partout. E.E.St Arktis's offspring are doing well in 3-day eventing and dressage competing in Prix St. Georges.

We don't know the breeding on Gaelic Prince's mum Gypsy, but she has always had coloured to plain coloured stallions and they have all been with good bone and good conformation.

Gaelic Prince is a lovely friendly foal with good conformation and plenty of bone. This wonderful good looking colt would make an excellent show jumper or event horse and is also very smart with good movements for dressage or showing.
