This is a lovely mare, which was imported from Italy by us, and her daughter Umbria (also in our herd today) was awarded State Premium and Premium status at her grading in Germany.

She had a colt selected to go to Neumunster grading and show and bred an St.Pr.u.Pr mare, which is also in our herd today.

This rare but very valuable mare bloodline, being well known for passing on outstanding dressage ability is related to Adolf Dorfler U- mare line, which has so much success in Germany and rated one of the top class mare lines of the Trakehner breed today, with so many graded stallions and top Champion mares to be proud of.

The Stallions Unesco (show jumper on advanced level), Uljanoff, which was Reserve Champion of the grading and dressage stallions Uckermarker and Ursprung are members of this mare bloodline. Top mares like, Ulrike, Uksana, Urtica, Ulla and Unesca also represents this mare family.

Ullalla's Sire Schneekonig competed successfully in three-day-event and left some outstanding broodmares before being sold to America and is today very popular in the ATA.

Her 3th Sire Mahdi is a full brother to the leading Sire Flaneur.

Ullalla breeds top class off spring and this mare line is very well known for its riding ability, her foals are very correct in conformation with good hind action.
